JON S. CORZINE
GOVERNOR

May 30, 2009

Dear Friends,

Best wishes to the participants and planners of the Third Annual ALOHA Mind Math Olympiad 2009.

The Abacus Learning of Higher Arithmetic's vision is to provide the ability to overcome the fear of learning for children, by training them to sharpen their skills in school. The program reiterates the importance of excellence in arithmetic and early learning.

This event is both an opportunity to enrich the young minds of our schools and to showcase the educational accomplishments of our communities. This program has shown great commitment to the quality of education and its vision for enrichment of the young mind.

Again, best wishes for a successful and rewarding event.

Sincerely,
